About Us

The Attorneys In Motion Foundation is dedicated to advancing women lawyers and business owners by providing the capital and connections needed to build and grow successful ventures.

Access to funding remains one of the greatest barriers to growth. We exist to change that—by investing in women with vision, ambition, and the drive to lead.

Through the support of our sponsors and partners, we help turn potential into progress—fueling businesses, expanding opportunities, and creating meaningful, lasting impact.

Each contribution is more than support—it is an investment in leadership, innovation, and the future of women in law and business.

We invite you to join us in investing in the next generation of women who are not just building businesses—but defining the future.
